

# 2010 Catalog and Information Guide for Proficiency Testing

Improving Quality Care Through Accurate Diagnostic Testing

A Service of  
The American College of Physicians

**ACP**  
AMERICAN COLLEGE OF PHYSICIANS  
INTERNAL MEDICINE | Doctors for Adults

Dear Laboratory Professional:

### Why Choose MLE?

- Special Waived Testing menu (see page 14–16)
- “Automatic Renewal” for your convenience (see page 17)
- A large selection of cost-effective “add-ons”
- User-friendly online options
- Only 3 shipments per year
- Off-Schedule Proficiency Testing—Available to every laboratory, regardless of MLE enrollment status (see page 16)

### Save Money!

Enjoy one of our ADVANTAGE Discounts (subject to eligibility) or fax us a “Price Match Request” form and we will **match the price** for 2010 (pages 18, 19) of any competitor if our regular pricing happens to be higher.

### MLE Exceeds the Standard

- For over 35 years, MLE, a service of the American College of Physicians, has provided reliable, user-friendly PT service at a substantial cost savings.
- With only 3 shipments per year, our consolidated service leaves you time for other important activities.
- Immediate Assistance: When you call, we answer! Talk to a live customer service representative or on-site medical technologist and receive the answers you need, when you need them.
- Try us out and you will experience our easy-to-use and customer-responsive PT service.

Just as your goal is to provide the highest level of patient care through accurate diagnostic testing, we strive to streamline the way in which Proficiency Testing (PT) is performed while ensuring that it remains an essential component of quality and safety in patient care.

### Act Now!

Locate the tests you need (see pages 2–16), check the inside back cover of this catalog to see which discount is right for you, then complete the PT Order Form on page 24 or online at [www.acponline.org/mle/enroll.htm](http://www.acponline.org/mle/enroll.htm).

It's *THAT* easy! We look forward to providing you with service excellence!

Regards,

A handwritten signature in black ink that reads 'Connie Laubenthal'.

Connie Laubenthal, MS, CLS(NCA), MT(ASCP) Director

***P.S. Bottom Line ... try us for 2010 and we will match the price of our competitors to gain your business. We are confident that you will enjoy MLE service for many years to come! (Note: Discounts cannot be combined.)***

Provided by the American College of Physicians

# Table of Contents

## Overview/What's New

### Attention: Renewing MLE Participants! Save \$75 on your 2010 enrollment!

Enroll your colleagues in the MLE Program. You AND your colleagues will save \$75. For details, see page 20.

# At a Glance

## Customer Service Hours and Contact Information

Monday through Friday from 9:00 a.m. to 5:00 p.m. ET

**Telephone:** 1-800-338-2746, option 5

**E-mail:** [mle@acponline.org](mailto:mle@acponline.org)

**Fax:** 202-835-0440

**Web:** [www.acponline.org/mle](http://www.acponline.org/mle)

## Event Dates

MLE ships 3 times per year. Enroll anytime of the year.

After the first event, module pricing is pro-rated.

**M1: February 1 • M2: May 10 • M3: September 13**

## Enrollment/Renewal of Proficiency Testing

Whichever method of enrollment you select, once we process your order, you will be mailed an order verification for your review and signature.

**Online Order Form:** Visit [www.acponline.org/mle](http://www.acponline.org/mle). Click on the "Enrollment Info" link. Complete the appropriate electronic order form to automatically calculate pricing, and you will receive an order summary page.

**MLE PT Order Form:** Detach the order form, complete it and fax it. (If submitting a purchase order, please fax.)

**Fax:** 202-835-0440.

### Mail:

Mailing Form with Payment	Mailing Form w/o Payment
RO800 ACP/MLE PO Box 7777 Philadelphia, PA 19175-0800	MLE/ACP Suite 700 25 Massachusetts Ave. NW Washington, DC 20001-7401

## Method of Payment

Enroll now to ensure the availability of specimens for the 2010 program year. We will not bill you until November. Subsequent enrollments will be billed within 1 week after activation and are payable within 30 days. Payment options include credit card (Mastercard or Visa), purchase order, or check.

## Off-Schedule Proficiency Testing

Provides laboratories with an option for immediate, on-demand proficiency testing, a complement to the regular scheduled proficiency testing. For more details on this service, see page 16.

# Test Index

(Descriptions are located on pages 5–16)

Regulated tests are listed in bold type.

<b>ABO Group</b> .....	6
Acetaminophen .....	12
Acetone .....	12
<b>Affirm VPIII (DNA)</b> .....	9
AFP .....	13
<b>Albumin</b> .....	11, 12, 15
<b>Alcohol, Serum</b> .....	12
<b>Alkaline Phosphatase</b> .....	11, 12, 15
Allergy Testing .....	10
<b>ALT (SGPT)</b> .....	11, 12, 15
Amikacin .....	12
Ammonia .....	12
<b>Amylase</b> .....	11, 12, 15
<b>Antibody Detection</b> .....	6

Waived and PPM package .....	7, 14, 16
Waived Test Menu .....	14
Wet Mount Preparations (PPM) .....	7, 16
<b>Wound Culture</b> .....	8

# Overview

An essential tool for quality improvement, Proficiency Testing (PT) was originally developed as an educational tool to help laboratories investigate internal procedural problems and take corrective action to minimize the effect on patient results. Today, PT is the standard of competency most heavily weighed by regulatory inspectors. MLE's Proficiency Testing (PT) program is designed for easy access, simple performance, and clear reporting.

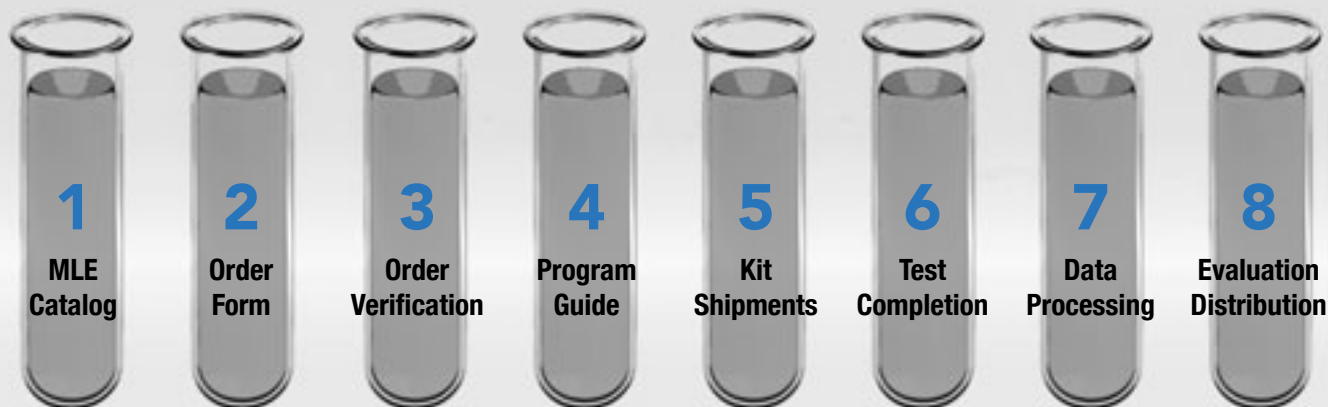

PT is the practice of testing specimens of unknown values sent from an outside source. After submitting your test results, you receive data that compare your laboratory's performance with that of other labs that did the same procedures on the same specimens.

All tests in the MLE Program are included in the same shipment.

## Our Guarantee

If a specimen is missing, leaking, broken, not labeled, hemolyzed, or crushed, and you contact us within three (3) working days of receipt of your kit, we will provide a replacement for the specimen(s) FREE of charge (limited to material availability) or your lab will receive a grading exception for that test.

## How MLE Works

**1** MLE sends you a catalog to review program options.

**2** You complete an online or hard copy order form (page 24) and return it to MLE for processing.

**3** MLE processes your order and sends you an Order Verification for your review and approval.

**4** Approximately two weeks prior to the upcoming shipment, MLE sends you a program guide to prepare for your first testing event.

**5** MLE sends you scheduled shipments of test kits which include specimens to analyze in the same way that you regularly test patient specimens.

**6** Upon completion of the testing, you submit your results via online or by mail to MLE for evaluation.

**7** MLE performs statistical compilation of all participants' results.

**8** MLE mails or e-mails you an evaluation report, graded according to regulatory requirements, that compares your performance with that of other laboratories that used similar methods and instruments.

# Hematology

Note: Module descriptions within each category are NOT listed in numerical order. They are grouped by the type of test.

Please pay close attention to instrument compatibility notes when selecting hematology modules. Questions? Contact MLE Customer Service. See Table below or see "Hematology Instrument List" online at [www.acponline.org/mle/enroll.htm](http://www.acponline.org/mle/enroll.htm) and scroll to "Forms."

5-part Differential Instrument(s)	Recommended Module
ABX Pentra series	228
CELL-DYN 3000-3700, 4000	223
CELL-DYN Ruby and Sapphire	223
COULTER AcT 5diff	228
COULTER GenS, HmX, MAXM, LH series	226
Sysmex X-series	229

210 Hematology Module .....\$171  
Includes 211 and 230.

211 Basic Hematology .....\$159  
**Five challenges each.**

<i>Hemoglobin</i>	<i>RBC</i>
<i>Hematocrit</i>	<i>Platelet Count</i>
<i>WBC</i>	

212 Hemoglobin/Hematocrit .....\$138  
**Five challenges each.**

213 Hemoglobin/Hematocrit—Waived .....\$111  
For waived methods only.

**Two challenges each.**

215 Hemoglobin/Glucose .....\$126  
For HemoCue only.

**Two challenges each.**

223 Hematology with 5-part Differential .....\$279  
Compatible with most Abbott CELL-DYN 5-part differential instruments only.

**Five challenges each.**

<i>Hemoglobin</i>	<i>RBC</i>
<i>Hematocrit</i>	<i>Platelet Count</i>
<i>WBC</i>	<i>Automated Differential</i>

224 Sysmex with 3-part Differential .....\$207  
Compatible with Sysmex 3-part automated differential instruments only.

**Five challenges each.**

<i>Hemoglobin</i>	<i>RBC</i>
<i>Hematocrit</i>	<i>Platelet Count</i>
<i>WBC</i>	<i>Automated Differential</i>

225 Hematology with 3-part Differential .....\$207  
Compatible with most 3-part differential instruments. Sysmex users (see module 224).

**Five challenges each.**

<i>Hemoglobin</i>	<i>WBC</i>
<i>Hematocrit</i>	<i>Platelet Count</i>
<i>RBC</i>	<i>Automated Differential</i>

226 Hematology with 5-part Differential .....\$279  
Compatible with most Beckman–Coulter 5-part differential instruments EXCEPT for the AcT 5diff (see module 228).

**Five challenges each.**

<i>Hemoglobin</i>	<i>RBC</i>
<i>Hematocrit</i>	<i>Platelet Count</i>
<i>WBC</i>	<i>Automated Differential</i>

227 QBC Hematology .....\$279  
Compatible with Becton Dickinson QBC instruments including models with 2-part differential.

**Five challenges each.**

<i>Hemoglobin</i>	<i>Platelet Count</i>
<i>Hematocrit</i>	<i>Lymphocytes / Monocytes</i>
<i>WBC</i>	<i>Granulocytes</i>

228 Hematology with 5-part Differential .....\$279  
Compatible with Beckman Coulter AcT 5diff and ABX Pentra 5-part differential instruments.

**Five challenges each.**

<i>Hemoglobin</i>	<i>RBC</i>
<i>Hematocrit</i>	<i>Platelet Count</i>
<i>WBC</i>	<i>Automated Differential</i>

229 Sysmex with 5-part Differential .....\$279  
Compatible with most Sysmex 5-part differential instruments only.

**Five challenges each.**

<i>Hemoglobin</i>	<i>WBC</i>
<i>Hematocrit</i>	<i>Platelet Count</i>
<i>RBC</i>	<i>Automated Differential</i>

# Urinalysis

**530 Urinalysis Module** . . . . . \$78  
Includes 531 and 532.

**531 Urinalysis Dipstick** . . . . . \$60  
hCG not included.  
**One challenge each.**

<i>Bilirubin</i>	<i>pH</i>
<i>Blood / Hemoglobin</i>	<i>Protein</i>
<i>Nitrite</i>	<i>Specific Gravity</i>
<i>Glucose</i>	<i>Microalbumin</i>
<i>Ketones</i>	<i>(dipstick only)</i>
<i>Urobilinogen</i>	<i>Leukocyte Esterase</i>

**532 Urine Sediment Identification** . . . . . \$87  
**Two challenges consisting of color photographs.**

**533 Urine Sediment Identification (Add-On)** . . . . . \$18  
Same as 532. Only available with 531, 534.  
**Two challenges consisting of color photographs.**

**536 Microalbumin (Add-On)** . . . . . \$72  
Same as 539. Only available with 530, 531, 541.

**539 Microalbumin** . . . . . \$84  
Stand-alone module.  
**One challenge each.**

<i>Microalbumin, quantitative</i>	<i>Creatinine</i>
-----------------------------------	-------------------

**537 Fecal Occult Blood (Add-On)** . . . . . \$66  
Same as 542.  
Only available with 530, 531, 532, 534.  
**Two challenges.**

**542 Fecal Occult Blood** . . . . . \$75  
Stand-alone module.  
Designed to allow the reporting and evaluation of results for as many as four different testing locations or personnel.  
**Two challenges.**

**540 Urine hCG (Add-On)** . . . . . \$18  
Same as 541.  
Only available with 530, 531.  
**One challenge.**

**541 Urine hCG** . . . . . \$42  
Stand-alone module.  
**One challenge.**

## NEW!

**550 AmniSure Fetal Membrane Rupture Test** . . . . . \$243  
For use with the AmniSure ROM Test kit only.  
**One challenge.**

**901 Waived and PPM Package** . . . . . \$186  
**Number of challenges noted in parentheses.**

<i>Fecal Occult Blood (2)</i>	<i>Urinalysis (1)</i>
<i>Hemoglobin (2)</i>	<i>Urine hCG (1)</i>
<i>Hematocrit (2)</i>	<i>Urine Sediment (2)</i>
<i>PPM (6)</i>	<i>Strep A Antigen Detection (2)</i>
<i>Whole Blood Glucose (2)</i>	

# Provider-Performed Microscopy

**534 Provider-Performed Microscopy (PPM)** . . . . . \$90  
Color photographs depicting microscopic fields for the examination of Vaginal Wet Mount Preparations, Vaginal KOH Preparations, Nasal Eosinophils, Fecal Leukocytes, Pinworms, Sperm, and FERN testing.  
Urine sediment identification not included.  
**Six challenges.**

**535 Provider-Performed Microscopy (PPM)—Add-On** . \$21  
Same as 534. Only available with 530, 531, 532.

**538 KOH Slides** . . . . . \$114  
Two fixed glass slides for determining the presence or absence of fungal elements in skin scrapings.  
**Two challenges.**

# Microbiology

The specimens included may contain dangerous pathogens and must be treated with extreme care. These specimens must be handled and disposed of only by personnel trained to work with pathogenic microorganisms.

## 630 Bacteriology 1 . . . . . \$252

Consists of each of the following:

<i>Urine Culture (1)</i>	<i>Gram Stain (1)</i>
<i>Throat Culture (1)</i>	<i>Antimicrobial</i>
<i>Genital Culture (1)</i>	<i>Susceptibility Testing (1)</i>

Plus, an additional three challenges will also be provided from the following sources: blood, CSF, wound, respiratory, and/or stool for a total of 6 cultures.

## 640 Bacteriology 2 . . . . . \$243

<i>Urine Culture (2)</i>	<i>Strep A Antigen</i>
<i>Throat Culture (2)</i>	<i>Detection (1)</i>
<i>Gram Stain (1)</i>	<i>Antimicrobial</i>
<i>GC Culture (1)</i>	<i>Susceptibility Testing (1)</i>

## 643 Urine Culture . . . . . \$240

<i>Urine Culture (5)</i>	<i>Gram Stain (1)</i>
<i>Antimicrobial</i>	
<i>Susceptibility Testing (1)</i>	

## 644 Urine Culture/Strep A Antigen Detection . . . . . \$240

<i>Urine Culture (2)</i>	<i>Strep A Antigen</i>
<i>Gram Stain (1)</i>	<i>Detection (3)</i>
<i>Antimicrobial</i>	
<i>Susceptibility Testing (1)</i>	

## 645 Urine/Throat Culture . . . . . \$240

<i>Urine Culture (3)</i>	<i>Throat Culture (2)</i>
<i>Gram Stain (1)</i>	<i>Antimicrobial</i>
	<i>Susceptibility Testing (1)</i>

## 647 Urine Presumptive ID/Colony Count . . . . . \$279

Best suited for paddle-dipping methods.

<i>Presumptive</i>	<i>Colony Count (2)</i>
<i>Identification (5)</i>	<i>Antimicrobial</i>
<i>Gram Stain (1)</i>	<i>Susceptibility Testing (1)</i>

## 648 Colony Count\* . . . . . \$180

\*This module is for Colony Count ONLY!

No presumptive identification may be submitted for this module.

For presumptive identification, order module 647.

**Two challenges.**

## 649 Urine Presumptive ID/Strep A Antigen Detection . . . . . \$267

Best suited for urine paddle-dipping methods.

<i>Presumptive</i>	<i>Colony Count (2)</i>
<i>Identification (2)</i>	<i>Antimicrobial</i>
<i>Gram Stain (1)</i>	<i>Susceptibility Testing (1)</i>
<i>(directly from</i>	<i>Strep A Antigen</i>
<i>sample provided)</i>	<i>Detection (5)</i>

## 652 Urine Presumptive ID/Throat Culture . . . . . \$279

Best suited for urine paddle-dipping methods.

<i>Presumptive</i>	<i>Colony Count (2)</i>
<i>Identification (2)</i>	<i>Antimicrobial</i>
<i>Gram Stain (1)</i>	<i>Susceptibility Testing (1)</i>
<i>(directly from</i>	<i>Throat Culture (3)</i>
<i>sample provided)</i>	

## 650 Gram Stain . . . . . \$150

Five fixed glass slides.

**Five challenges.**

## 641 Throat Culture . . . . . \$240

Not suitable for Strep A kits. Appropriate for determining the presence or absence of group A streptococcus.

**Five challenges.**

## 642 Throat Culture/Strep A Antigen Detection . . . . . \$240

<i>Throat Culture (2)</i>	<i>Strep A Antigen</i>
	<i>Detection (3)</i>

## 660 Strep A Antigen Detection . . . . . \$141

For Strep A Antigen Detection kits only.

**Five challenges.**

## 662 Strep A Antigen Detection—Waived . . . . . \$84

For waived Strep A Antigen Detection kits only.

**Two challenges.**

## 646 GC Culture . . . . . \$240

<i>GC Culture (5)</i>	<i>Gram Stain (1)</i>
<i>Beta (β)-Lactamase Testing,</i>	
<i>when applicable</i>	

## 654 GC Culture (Add-On) .....\$96

Same as 646. Only available with 641 through 645, 647, 649, 650, 652, 660, 670.

**Two challenges.**

## 668 Affirm VP III (DNA) .....\$357

**Five challenges each.**

*Candida sp.*                      *Trichomonas vaginalis*  
*Gardnerella vaginalis*

## 670 Chlamydia (EIA, DNA) .....\$270

**Five challenges.**

## 675 Chlamydia/GC (EIA, DNA) .....\$297

**Five challenges each.**

*Chlamydia trachomatis*      *Neisseria gonorrhoeae*

## 673 Chlamydia (EIA, DNA)—Add-On .....\$114

Same as 670. Only available with 630 through 647, 649, 650, 652, 660.

**Two challenges.**

### Note

- Federal law requires a minimum of five non-waived bacteriology challenges per shipment. Individual state laws may differ. When enrolling, confirm your state's requirements and place your order accordingly.
- All urine culture specimens are suitable for presumptive identification (ie, growth/no growth, Gram stain interpretation) and/or definitive identification (ie, genus and/or species).
- The number of challenges is noted in parentheses.

## 678 Dermatophyte Screen .....\$153

Appropriate for determining the presence or absence of dermatophytes.

**Two challenges.**

## 538 KOH Slides .....\$114

Two fixed glass slides for determining the presence or absence of fungal elements in skin scrapings.

**Two challenges.**

## 680 Respiratory Antigen Detection—Waived .....\$156

**Two challenges each.**

*Influenza A*                      *Influenza A/B Combo*  
*Influenza B*                      *RSV*

## 681 Respiratory Antigen Detection .....\$249

**Five challenges each.**

*Influenza A*                      *Influenza A/B Combo*  
*Influenza B*                      *RSV*

682 *C. difficile*/Rotavirus Antigen Detection .....\$219

**Five challenges each.**

*C. difficile* Toxin /              *Rotavirus*  
Common Antigen

683 *Giardia lamblia*/Cryptosporidium Antigen Detection .....\$201

**Five challenges each.**

*Cryptosporidium*              *Giardia lamblia*

## 686 Legionella Antigen Detection .....\$156

For use with the Binax NOW Legionella Urinary Antigen Detection kits only.

**Five challenges each.**

687 *Streptococcus pneumoniae* Antigen Detection ..\$156

For use with the Binax NOW *Streptococcus pneumoniae* Urinary Antigen Detection kit only.

**Five challenges.**

## 690 Parasitology .....\$201

Provides five challenges from among the following: PVA Slide (for permanent stain), Fecal Suspension (direct wet mount examination for ova and parasites), Blood Smear for Parasites.

## 695 MRSA Screening .....\$237

Screening for the presence or absence of methicillin-resistant *Staphylococcus aureus* only.

**Five challenges.**

## Immunology

## 750 Immunology Module .....\$228

**Five challenges each.**

*Infectious Mononucleosis*      *Anti-Streptolysin O*  
*Rheumatoid Factor*              *(ASO)*

## 751 Rheumatology Module .....\$156

**Five challenges each unless otherwise noted in parentheses.**

*C-Reactive Protein (2)*              *Rheumatoid Factor*  
*Not for high-sensitivity methods*

- 756 Tear Lactoferrin .....\$108  
**Two challenges.**
- 757 Tear IgE .....\$135  
**Five challenges.**
- 755 Infectious Mononucleosis—Waived .....\$87  
For waived Infectious Mononucleosis kits only.  
**Two challenges.**
- 762 Infectious Mononucleosis .....\$150  
**Five challenges.**
- 761 Infectious Mononucleosis/Rheumatoid Factor ..\$213  
Includes 762 and 763.  
**Five challenges each.**
- 763 Rheumatoid Factor .....\$150  
**Five challenges.**
- 764 C-Reactive Protein (CRP) .....\$87  
Not for high-sensitivity methods.  
**Two challenges.**
- 776 C-Reactive Protein (CRP)—Add-On .....\$45  
Not for high-sensitivity methods.  
Only available with 750.  
**Two challenges.**
- 765 High-Sensitivity C-Reactive Protein (HS-CRP) ...\$87  
**Two challenges.**
- 777 High-Sensitivity C-Reactive Protein  
(HS-CRP)—Add-On .....\$48  
Only available with 750, 751.  
**Two challenges.**
- 766 Antinuclear Antibody (ANA) .....\$144  
For Latex methods ONLY.  
**Five challenges.**
- 778 Antinuclear Antibody (ANA)—Add-On .....\$87  
Same as 766.  
For Latex methods ONLY. Only available with 751.  
**Five challenges.**
- 767 Antinuclear Antibody (ANA) .....\$144  
For ELISA and Immunofluorescence methods ONLY.  
**Five challenges.**
- 779 Antinuclear Antibody (ANA)-Add-On .....\$87  
Same as 767.  
For ELISA and Immunofluorescence methods ONLY.  
Only available with 751.  
**Five challenges.**
- 782 ANA Expanded .....\$204  
For ELISA and IFA methods ONLY.  
**Five challenges each.**  
ANA *Anti-SSA*  
*Anti-dsDNA* *Anti-SSB*  
*Anti-RNP* *Anti-Sm*
- 783 ANA Expanded (Add-On) .....\$147  
Same as 782. Only available with 751.  
For ELISA and IFA methods ONLY.
- 768 Complement C3 and C4 .....\$171  
**Five challenges each.**
- 769 Immunoglobulins .....\$162  
**Five challenges each.**  
*IgA, Total* *IgM, Total*  
*IgG, Total*
- 771 Rubella .....\$147  
**Five challenges.**
- 772 Syphilis Serology .....\$162  
**Five challenges.**
- 770 Specific Allergen Testing .....\$315  
Includes 2 sets of samples for large volume requirements.  
Compatible with Hitachi CLA-1.  
Does not include Total IgE.  
*Allergen Specific IgE (14)*
- 773 Diagnostic Allergy .....\$315  
**Number of challenges noted in parentheses.**  
*Allergen Specific IgE (14)* *Total IgE (5)*
- 774 Lyme Disease Serology .....\$198  
**Two challenges.**  
*Anti-Borrelia burgdorferi*

## 775 Viral Markers .....\$345

**Five challenges each.**

<i>HbsAb</i>	<i>HbsAg</i>
<i>Anti-HIV</i>	<i>HbeAg</i>
<i>HAV</i>	<i>Anti-HBc</i>
<i>HCV</i>	

780 *H. pylori* Antibody Detection .....\$132

For waived and non-waived methods.

**Two challenges.**

## 781 Mycoplasma .....\$114

*IgG only.***Two challenges.****NEW!**

## 790 Anti-HIV—Waived .....\$132

For waived HIV kits only.

**Two challenges.**

<i>Anti-HIV1</i>	<i>Anti-HIV 1/2</i>
------------------	---------------------

**NEW!**

## 791 Anti-HIV .....\$300

**Five challenges.**

<i>Anti-HIV1</i>	<i>Anti-HIV 1/2</i>
------------------	---------------------

# Chemistry

## Chemistry Ordering Tips

- If you perform chemistry panels designed to match CPT panels, see modules 813 through 816, which are configured to match CPT profiles.
- If you use the i-STAT instrument, select modules 817, 818, or 832 which are specifically for i-STAT instruments.

Please pay close attention to instrument compatibility notes when selecting any of the chemistry modules. If you need further assistance, call MLE Customer Service at 1-800-338-2746, option 5, or e-mail us at [mle@acponline.org](mailto:mle@acponline.org).

## 811 Cholestech Waived Chemistry .....\$144

For the LDX Cholestech Instrument (Waived testing ONLY).

**Two challenges each.**

<i>ALT (SGPT)</i>	<i>Glucose</i>
<i>AST (SGOT)</i>	<i>HDL Cholesterol</i>
<i>Cholesterol, Total</i>	<i>Triglyceride</i>

## 812 Piccolo Waived Chemistry .....\$180

For the Abaxis Piccolo Instrument—waived cartridges ONLY.

**Two challenges each.**

<i>Albumin</i>	<i>CO<sub>2</sub></i>	<i>Potassium</i>
<i>Alkaline Phosphatase</i>	<i>Creatine Kinase</i>	<i>Sodium</i>
<i>ALT (SGPT)</i>	<i>(CK) NEW!</i>	<i>Total Bilirubin</i>
<i>Amylase</i>	<i>Creatinine</i>	<i>Total Protein</i>
<i>AST (SGOT)</i>	<i>GGT</i>	<i>Triglyceride</i>
<i>Calcium</i>	<i>Glucose</i>	<i>Urea Nitrogen</i>
<i>Chloride</i>	<i>HDL</i>	<i>Uric Acid</i>
<i>Cholesterol</i>	<i>Phosphorus</i>	
	<b>NEW!</b>	

## 817 i-STAT Chemistry 1 .....\$342

For i-STAT analyzer only. Includes 818 and 847.

## 818 i-STAT Chemistry 2 .....\$201

For i-STAT analyzer only.

**Five challenges each.**

<i>Chloride</i>	<i>Hemoglobin</i>
<i>CO<sub>2</sub></i>	<i>Ionized Calcium</i>
<i>Creatinine</i>	<i>Potassium</i>
<i>Glucose</i>	<i>Sodium</i>
<i>Hematocrit</i>	<i>Urea Nitrogen</i>

**NEW!**

## 832 i-STAT Chemistry—Waived .....\$138

For i-STAT analyzer (Waived cartridges only).

**Two challenges each.**

<i>Chloride</i>	<i>Hemoglobin</i>
<i>CO<sub>2</sub></i>	<i>Ionized Calcium</i>
<i>Creatinine</i>	<i>Potassium</i>
<i>Glucose</i>	<i>Sodium</i>
<i>Hematocrit</i>	<i>Urea Nitrogen</i>

## 810 Chemistry Module .....\$294

Includes 821, 822, 823, 825, 827, 842.

**Five challenges.**

## 813 Comprehensive Metabolic Panel .....\$222

Includes 814, 816, 822.

## 814 Basic Metabolic Panel .....\$171

**Five challenges unless otherwise noted in parentheses.**

<i>Calcium</i>	<i>Glucose</i>
<i>Chloride</i>	<i>Potassium</i>
<i>CO<sub>2</sub> (2)</i>	<i>Sodium</i>
<i>Creatinine</i>	<i>Urea Nitrogen</i>

**815 Hepatic Profile . . . . . \$192****Five challenges each unless otherwise noted in parentheses.**

<i>Albumin</i>	<i>Direct Bilirubin (2)</i>
<i>Alkaline Phosphatase</i>	<i>Total Bilirubin</i>
<i>ALT (SGPT)</i>	<i>Total Protein</i>
<i>AST (SGOT)</i>	

**816 Hepatic Profile (Add-On) . . . . . \$36**

Same as 815. Only available with 814, 819-821, 824, 826, 830.

**819 Chemistry 1 . . . . . \$168****Five challenges each.**

<i>Cholesterol, Total</i>	<i>Urea Nitrogen</i>
<i>Glucose</i>	<i>Potassium</i>

**820 Chemistry 2 . . . . . \$198****Five challenges each unless otherwise noted in parentheses.**

<i>Total Bilirubin</i>	<i>Glucose</i>
<i>Chloride</i>	<i>Potassium</i>
<i>Cholesterol, Total</i>	<i>Sodium</i>
<i>CO<sub>2</sub> (2)</i>	<i>Urea Nitrogen</i>
<i>Creatinine</i>	<i>Uric Acid</i>

**821 Chemistry 3 . . . . . \$228****Five challenges each unless otherwise noted in parentheses.**

<i>Total Bilirubin</i>	<i>LDL Cholesterol (2)</i>
<i>Chloride</i>	<i>Potassium</i>
<i>Cholesterol, Total</i>	<i>Sodium</i>
<i>CO<sub>2</sub> (2)</i>	<i>Triglyceride</i>
<i>Creatinine</i>	<i>Urea Nitrogen</i>
<i>Glucose</i>	<i>Uric Acid</i>
<i>HDL Cholesterol</i>	

**822 Chemistry (Add-On) . . . . . \$36**

Only available with 814, 815, 819-821, 824, 826, 830.

**Five challenges each unless otherwise noted in parentheses.**

<i>Albumin</i>	<i>Phosphorus (2)</i>
<i>Calcium</i>	<i>Total Protein</i>
<i>Iron</i>	<i>TIBC</i>
<i>Magnesium</i>	<i>UIBC</i>
	<i>Uric Acid</i>

**823 Enzyme Chemistry (Add-On) . . . . . \$36**

Only available with 813, 814, 815, 819-821, 824, 826, 830.

**Five challenges each unless otherwise noted in parentheses.**

<i>ALT (SGPT)</i>	<i>Creatine Kinase (CK)</i>
<i>Alkaline Phosphatase</i>	<i>GGT (2)</i>
<i>Amylase</i>	<i>LDH</i>
<i>AST (SGOT)</i>	<i>Lipase (2)</i>

**824 Thyroid Profile . . . . . \$204****Five challenges each unless otherwise noted in parentheses.**

<i>Cortisol</i>	<i>Thyroxine (T4)</i>
<i>Free T3 (2)</i>	<i>Triiodothyronine (T3)</i>
<i>Free T4</i>	<i>TSH</i>
<i>T3 Uptake</i>	

**825 Thyroid Profile (Add-On) . . . . . \$45**

Same as 824. Only available with 813-815, 819-821, 826, 830.

**826 Lipid Profile . . . . . \$198****Five challenges each unless otherwise noted in parentheses.**

<i>Cholesterol, Total</i>	<i>LDL Cholesterol (2)</i>
<i>HDL Cholesterol</i>	<i>Triglyceride</i>

**827 Lipid Profile (Add-On) . . . . . \$36**

Same as 826. Only available with 813-815, 819, 824, 830.

**829 Apolipoproteins . . . . . \$108****Two challenges each.**

<i>Apolipoprotein A1</i>	<i>Apolipoprotein B</i>
--------------------------	-------------------------

**830 Therapeutic Drug Monitoring . . . . . \$198****Five challenges each.**

<i>Acetaminophen</i>	<i>Gentamicin</i>	<i>Salicylate</i>
<i>Amikacin</i>	<i>Lithium</i>	<i>Theophylline</i>
<i>Carbamazepine</i>	<i>Phenobarbital</i>	<i>Valproic Acid</i>
<i>Digoxin</i>	<i>Phenytoin</i>	<i>Vancomycin</i>

**831 Therapeutic Drug Monitoring (Add-On) . . . . . \$45**

Same as 830. Only available with 810, 813-815, 819-821, 824, 826.

**835 Serum Alcohol/Acetone . . . . . \$201****Five challenges each.**

<i>Alcohol</i>	<i>Acetone</i>
----------------	----------------

**836 Ammonia . . . . . \$135****Two challenges.****841 Neonatal Bilirubin . . . . . \$195****Number of challenges noted in parentheses.**

<i>Direct Bilirubin (2)</i>	<i>Total Bilirubin (5)</i>
-----------------------------	----------------------------

**842 Direct Bilirubin (Add-On) . . . . . \$30**

Same as 843.

Only available with 814, 819-821, 824, 826.

**Two challenges.**

**NEW!**

843 Direct Bilirubin .....\$84

**Two challenges.**

845 Cardiac Markers .....\$159

**Number of challenges noted in parentheses.**

Requires 1 mL volumetric pipette (see item 121, p. 16).

<i>CK-MB (5)</i>	<i>Troponin T (2)</i>
<i>Troponin I (2)</i>	<i>Myoglobin (2)</i>

846 BNP/NT-pro BNP .....\$180

B-type Natriuretic Peptide

**Two challenges.**

848 Biosite Triage SOB Panel .....\$351

For Biosite Triage users only.

**Five challenges each.**

<i>BNP</i>	<i>Myoglobin</i>
<i>CK-MB</i>	<i>Troponin I</i>
<i>D-dimer</i>	

847 Blood Gases .....\$264

Compatible with the i-STAT analyzer as well as other blood gas instruments.

**Five challenges each unless otherwise noted in parentheses.**

<i>Chloride</i>	<i>pO<sub>2</sub></i>
<i>Ionized Calcium (2)</i>	<i>Potassium</i>
<i>pCO<sub>2</sub></i>	<i>Sodium</i>
<i>pH</i>	

850 Glycohemoglobin .....\$138

NOT compatible with Afinion analyzer.

For waived and non-waived methods.

**Two challenges.**

851 Afinion Glycohemoglobin .....\$138

**Two challenges.**

855 Fructosamine .....\$135

NOT compatible with the LXN Test System.

**Two challenges.****NEW!**

856 Blood Oximetry .....\$225

**Five challenges each.**

<i>Carboxyhemoglobin</i>	<i>Oxyhemoglobin</i>
<i>Hemoglobin, Total</i>	<i>O<sub>2</sub> Saturation</i>
<i>Methemoglobin</i>	

**NEW!**

857 Blood Oximetry (Add-On) .....\$90

Same as 856. Only available with 847.

859 PSA (Add-On) .....\$36

Same as 861. Only available with 860.

860 Endocrinology/Hematology/Oncology .....\$174

**Two challenges each.**

<i>CEA</i>	<i>LH</i>
<i>Estradiol</i>	<i>Progesterone</i>
<i>Ferritin</i>	<i>Prolactin</i>
<i>Folate</i>	<i>Testosterone</i>
<i>FSH</i>	<i>Transferrin</i>
<i>Homocysteine</i>	<i>Vitamin B<sub>12</sub></i>

861 PSA .....\$93

**Two challenges each.**

862 Tumor Markers .....\$354

**Two challenges each.**

<i>AFP</i>	<i>CA 27-29</i>
<i>Beta (β)-2 Microglobulin</i>	<i>CEA</i>
<i>CA 125</i>	<i>Free PSA</i>
<i>CA 15-3</i>	<i>PSA</i>
<i>CA 19-9</i>	<i>Thyroglobulin</i>

863 Endocrinology 2 .....\$156

Lyophilized samples. 2 ml volumetric pipette required for reconstitution.

**Two challenges each.**

<i>C-Peptide</i>	<i>Parathyroid hormone</i>
<i>Insulin</i>	<i>(PTH)</i>
	<i>Vitamin D NEW!</i>

**NEW!**

864 Thyroid Antibodies .....\$195

**Two challenges each.**

<i>Thyroglobulin Antibody</i>	<i>Thyroid Microsomal</i>
	<i>Antibody (Anti-TPO)</i>

865 Serum hCG .....\$150

**Five challenges.**

866 Serum hCG (Add-On) .....\$75

Same as 865. Only available with 810, 813, 814, 815, 819, 820, 821, 824, 826.

**868 Urine Drug Screen . . . . . \$168****Two challenges for the qualitative detection of drugs in urine.**

Each challenge will include one or more of the following:

<i>Acetaminophen</i>	<i>Methadone</i>
<i>Amphetamines</i>	<i>Methamphetamines</i>
<i>Barbiturates</i>	<i>Methaqualone</i>
<i>Benzodiazepines</i>	<i>Morphine</i>
<i>Buprenorphine</i>	<i>Opiates</i>
<i>Cannabinoids</i>	<i>Oxycodone</i>
<i>Cocaine Metabolites</i>	<i>Phencyclidine</i>
<i>Ethanol</i>	<i>Propoxyphene</i>
<i>MDMA</i>	<i>Tricyclic Antidepressants</i>

**870 Whole Blood Glucose . . . . . \$231**

Designed to allow the reporting and evaluation of results for as many as five different glucose analyzers.

**Five challenges.****871 Whole Blood Glucose—Waived . . . . . \$132**

For waived methods only.

Designed to allow the reporting and evaluation of results for as many as five different glucose analyzers.

**Two challenges.****215 Glucose/Hemoglobin . . . . . \$126**

For HemoCue only.

**Two challenges each.****880 Additional Chemistry Testing Material . . . . . \$93**

Includes all analytes in Chemistry Module 810 and Therapeutic Drug Monitoring Module 830. It is the same material used in those modules and will be shipped to your laboratory at the same time as your regular Chemistry samples. You can use it as:

- Extra PT material in case you have a problem and need extra testing material.
- A way to double-check unacceptable PT results after corrective action.
- An educational tool to train personnel.
- A means to meet the CMS quality assurance requirements for a second chemistry instrument.

# Waived Testing

## Waived Testing—The Importance of Performing Proficiency Testing

Certificate of Waiver (COW) laboratories must only perform waived laboratory tests. When the Centers for Medicare & Medicaid Services (CMS) began random inspections of some COW laboratories in 2002, many laboratories chose to participate in proficiency testing as a quality assurance check. MLE responded by preparing special two-sample proficiency modules, designed for the needs of the waived testing laboratory. Our custom selection of waived modules appears on the following pages.

## E-notification Service

A value-added service to enhance the quality and safety of patient care. The e-mail notification service will provide Class I and Class II recall information and field corrections pertaining to waived test devices.

**Class I recalls are those that have a “probable risk of harm or death” to a patient if the items remain in use. Class II recalls have a “significant risk of harm” to a patient if they remain in use.**

In addition to the recall e-notification service, MLE provides:

- Notification of changes or additions to the CMS list of waived laboratory tests.
- A wide array of cost-saving Waived Testing Modules for continued quality assurance at a lower cost.
- A reminder prompt for notifications involving Microbiology tests, to ensure regulatory compliance for any remaining non-waived analytes.

To receive “E-Notify on Waived Tests” and the “Recalls and Field Corrections: Devices—Class I and Class II” report, send an e-mail to [mle@acponline.org](mailto:mle@acponline.org) and request to be added to the recipient list. In the e-mail request, be sure to include your MLE ID number.

### The Best in Proficiency Testing, Now in a More Convenient Package.

**901 Waived and PPM Package . . . . . \$186****Number of challenges noted in parentheses.**

<i>Fecal Occult Blood (2)</i>	<i>Urinalysis (1)</i>
<i>Hemoglobin (2)</i>	<i>Urine hCG (1)</i>
<i>Hematocrit (2)</i>	<i>Urine Sediment (2)</i>
<i>PPM (6)</i>	<i>Whole Blood Glucose (2)</i>
<i>Strep A Antigen Detection (2)</i>	

## Hematology

- 213 Hemoglobin/Hematocrit .....\$111  
For waived methods only.  
**Two challenges each.**
- 215 Hemoglobin/Glucose .....\$126  
For HemoCue only.  
**Two challenges each.**
- 247 Sedimentation Rate .....\$141  
**Two challenges.**

## Coagulation

- 327 CoaguChek S Prothrombin Time .....\$126  
For CoaguChek and CoaguChek S only.  
**Two challenges.**
- 329 ITC ProTime System .....\$126  
For ITC ProTime Microcoagulation System only.  
**Two challenges.**

## Urinalysis

- 531 Urinalysis Dipstick .....\$60  
hCG not included.  
**One challenge each.**
- 536 Microalbumin (Add-On) .....\$72  
Same as 539. Only available with 530, 531, 541.
- 537 Fecal Occult Blood (Add-On) .....\$66  
Same as 542. Only available with 530, 531, 532, 534.  
**Two challenges.**
- 539 Microalbumin .....\$84  
**One challenge each.**  
*Microalbumin,                      Creatinine*  
*quantitative*
- 540 Urine hCG (Add-On) .....\$18  
Same as 541.  
Only available with 530, 531.  
**One challenge.**

- 541 Urine hCG .....\$42  
**One challenge.**
- 542 Fecal Occult Blood .....\$75  
Designed to allow the reporting and evaluation of results for as many as four different testing locations or personnel.  
**Two challenges.**

## Microbiology

- 662 Strep A Antigen Detection—Waived .....\$84  
For waived Strep A Antigen Detection kits only.  
**Two challenges.**
- 680 Respiratory Antigen Detection—Waived .....\$156  
**Two challenges each.**  
*Influenza A                      Influenza A/B Combo*  
*Influenza B                      RSV*

## Immunology

- 755 Infectious Mononucleosis—Waived .....\$87  
For waived Infectious Mononucleosis kits only.  
**Two challenges.**
- 780 *H. pylori* Antibody Detection .....\$132  
For waived and non-waived methods.  
**Two challenges.**

## Chemistry

- 811 Cholestech Waived Chemistry .....\$144  
For the LDX Cholestech Instrument (Waived testing ONLY).  
**Two challenges each.**  
*ALT (SGPT)                      Glucose*  
*AST (SGOT)                      HDL Cholesterol*  
*Cholesterol, Total                      Triglyceride*
- 812 Piccolo Waived Chemistry .....\$180  
For the Abaxis Piccolo Instrument—Waived cartridges ONLY.  
**Two challenges each.**  
*Albumin                      CO<sub>2</sub>                      Potassium*  
*Alkaline Phosphatase                      Creatine Kinase                      Sodium*  
*ALT (SGPT)                      **NEW!**                      Total Bilirubin*  
*Amylase                      Creatinine                      Total Protein*  
*AST (SGOT)                      GGT                      Triglyceride*  
*Calcium                      Glucose                      Urea Nitrogen*  
*Chloride                      HDL                      Uric Acid*  
*Cholesterol                      Phosphorous*  
**NEW!**

**832 i-STAT Chemistry—Waived . . . . . \$138**

For i-STAT analyzer. Waived cartridges only.

**Two challenges each.**

<i>Chloride</i>	<i>Glucose</i>	<i>Ionized Calcium</i>
<i>Creatinine</i>	<i>Hematocrit</i>	<i>Potassium</i>
<i>CO<sub>2</sub></i>	<i>Hemoglobin</i>	<i>Sodium</i>
		<i>Urea Nitrogen</i>

**850 Glycohemoglobin . . . . . \$138**

For waived and non-waived methods.

**Two challenges.****871 Whole Blood Glucose—Waived . . . . . \$132**

For waived methods only. Designed to allow the reporting and evaluation of results for as many as five different glucose analyzers.

**Two challenges.****215 Hemoglobin/Glucose . . . . . \$126**

For HemoCue only.

**Two challenges each.****Provider-Performed Microscopy (PPM)****532 Urine Sediment Identification . . . . . \$87****Two challenges consisting of color photographs.****534 Provider-Performed Microscopy (PPM) . . . . . \$90**

Color photographs depicting microscopic fields for the examination of Vaginal Wet Mount Preparations, Vaginal KOH Preparations, Nasal Eosinophils, Fecal Leukocytes, Pinworms, Sperm, and FERN testing.

Urine sediment identification not included.

**Six challenges.****538 KOH Slides . . . . . \$114**

Two fixed glass slides for determining the presence or absence of fungal elements in skin scrapings.

**Two challenges.**

## Lab Supplies & Services

### Supplies

**121 Pipette—1mL . . . . . \$20**

For use with 320, 321, 845. Reusable Class A volumetric pipette required for reconstitution of lyophilized proficiency testing specimens.

**126 Pipette Pump . . . . . \$24**

For use with product 121 above.

### Services

**107 Hard Copy of Participant Summary for the Year . . \$15****108 Additional Program Binder . . . . . \$15****116 Automatic Program Renewal . . . . . FREE**

Free yourself from re-enrollment/re-ordering hassles. We'll do it for you! See next page for details.

### "E-Notify"

**Notification of newly waived tests and FDA Recalls delivered to your e-mail account . . . . . FREE**

To sign up for "E-Notify," send an e-mail to [mle@acponline.org](mailto:mle@acponline.org).

### Web Data Entry System (WDES)

**Online Result Reporting Program . . . . . FREE**

To register or receive more information, send an e-mail to [ptwebsupport@acponline.org](mailto:ptwebsupport@acponline.org). See next page.

### Off-Schedule Proficiency Testing

**Starts at . . . . . \$200**

Off-schedule proficiency testing (PT) provides laboratories with immediate, on-demand, customized proficiency testing for reinstatement or remedial purposes; a complement to the regularly scheduled PT program.

#### Who Needs Off-Schedule Testing?

- Laboratories with unsuccessful performance (score of less than 80%) for two out of three regular testing events may be required to perform off-schedule PT to lift a "cease-testing" order from their regulatory or accrediting agency. In these cases, two acceptable proficiency performances (score of 80% or better) may be required for the lab to resume testing patients.
- Some laboratories use off-schedule PT to verify that corrective actions were effective.

This service is available to every laboratory, regardless of MLE enrollment status.

For information on cost and availability, contact MLE Customer Service at 800-338-2746, option 5, or e-mail us at [mle@acponline.org](mailto:mle@acponline.org).

# Get more with WDES

- more user-friendly
- more intuitive
- more time savings

MLE's Online Result Entry Program. You will LOVE the significantly enhanced, "user-friendly," intuitive program, complete with:

- Evaluation results (access current and past reports)
- Links to the Participant Summaries, Test Result Form Booklet, and other valuable information.
- It retains your method codes!

## What are you waiting for?

Register for the next event by sending an e-mail request to [ptwebsupport@acponline.org](mailto:ptwebsupport@acponline.org)

## Sign Up NOW for "Automatic Renewal!"

Simple.  
Easy.

Best of all, it's one important management detail that you never have to worry about again!

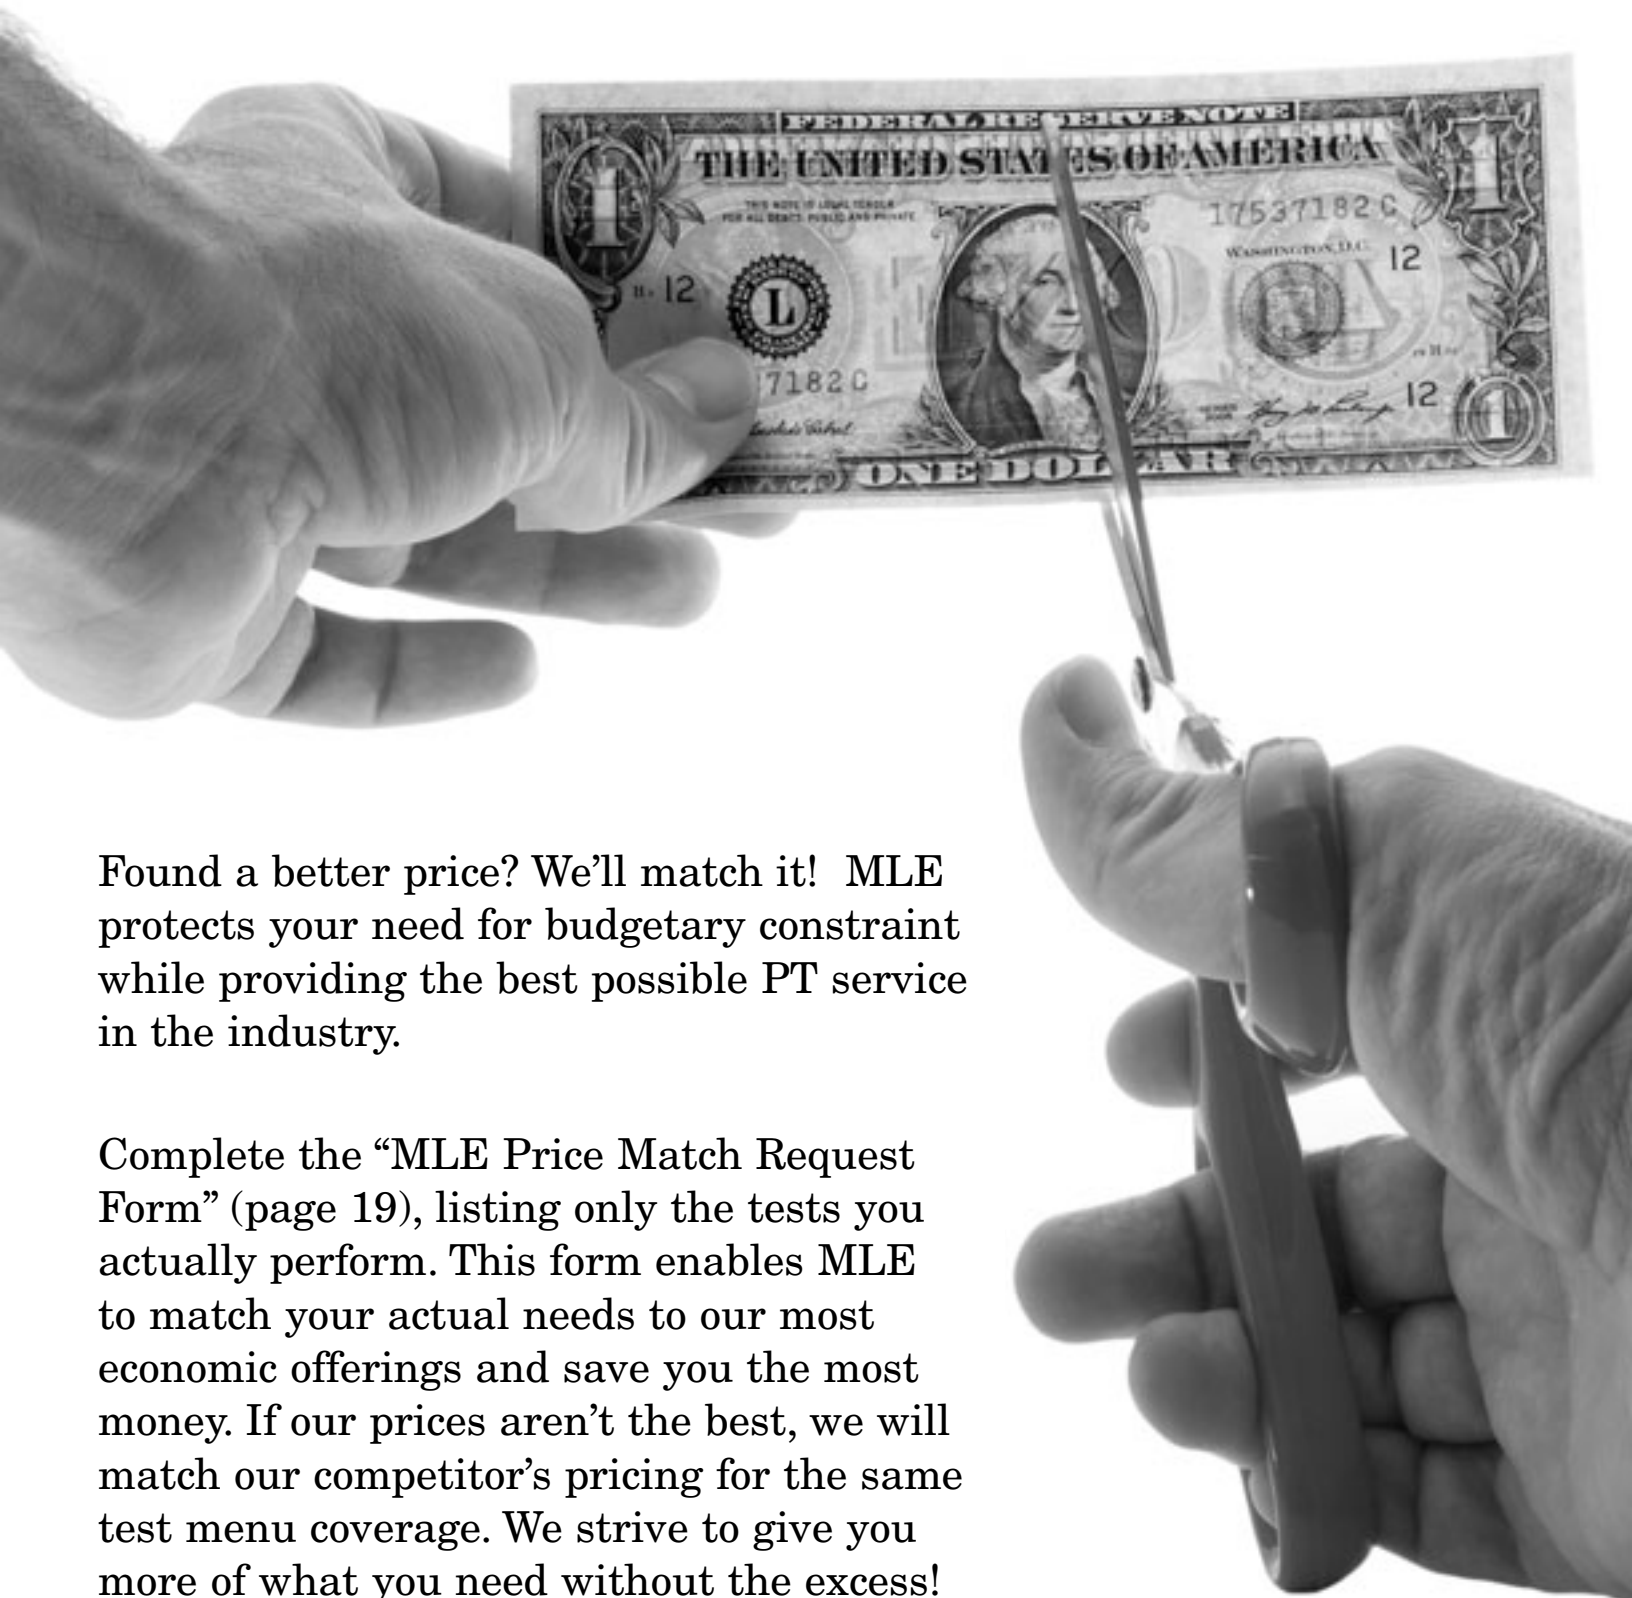

*We automatically:*

- Renew your enrollment.
- Reorder the modules in which you participated in the previous year.
- Send you a 2010 catalog to see if you would like to make changes to your order and an order verification for your review.
- Send an order change form should you wish to add or delete modules from your renewed order.

You even have time to cancel your order without penalty if you choose by **December 18th!**

To enroll in Automatic Renewal, check the automatic renewal box on the PT order form or the 2010 renewal form.

# Price Matching for Unmatched Service!

Found a better price? We'll match it! MLE protects your need for budgetary constraint while providing the best possible PT service in the industry.

Complete the “MLE Price Match Request Form” (page 19), listing only the tests you actually perform. This form enables MLE to match your actual needs to our most economic offerings and save you the most money. If our prices aren't the best, we will match our competitor's pricing for the same test menu coverage. We strive to give you more of what you need without the excess!

# MLE's Recruit 1, Waive 2 Program

## MLE Advantage Discount 9

Help increase peer group participation—recommend MLE Enrollment to your colleagues!

### Benefit

To provide you with larger peer groups, we must work together. MLE is the best-kept secret in quality improvement. Spread the word about us while helping your colleagues receive the same high-quality service at a competitive price!

### To be considered a recruited enrollee

The new enrollee must:

- Be a nonparticipant of MLE during the 2009 year.
- Submit an MLE PT Order Form.
- The waiver will not be applied until your recruiter's renewal is activated.

**IMPORTANT!** Write the name and MLE ID Number of the recruiter in the recruiter box in Section 9 on the PT Order Form.

**Note:** The new enrollee cannot combine MLE Discount offers for the 2010 program.

### As the recruiter

- Submit your MLE Renewal within 2 weeks of your colleague's order submission.

**IMPORTANT!** Write the name and phone number of your colleague in the designated area on your renewal.

### To maintain waiver

- Remain enrolled throughout the eligible program year.
- The fee waivers will not be applied until we receive enrollment on both labs.

### Attention Automatic Renewal Participants

As an Auto Renewal participant, you do not receive a renewal form or renewal fax reminder. Therefore, simply be sure your colleague writes your name and MLE ID number on his or her order form. Once the forms are processed, we will apply the waiver to your record as well as to the newly enrolled lab.

**Note:** If you will be receiving another ADVANTAGE discount for the 2010 program and you are participating in "Recruit 1, Waive 2," select the offer that provides the greatest discount. We are unable to apply BOTH discounts to your order. Your newly enrolled colleague will receive the administration fee waiver.

**A collective effort makes the difference.  
Call on the support of your colleagues today.**

**The Lab Alliance gives ACP Members Buying Power. And the Tools to Improve the Quality of Patient Care.**

Use the **ACP. COLA. MLE Lab Alliance** to ensure the quality of your lab while realizing savings via Alliance discounts.

ACP and ACP's Proficiency Testing Program, Medical Laboratory Evaluation (MLE) have joined with COLA, a national healthcare accreditation and e-Learning organization, to bring you a true "one source" resource for Internists.

We know the many challenges you face and we are committed to giving you and your staff the highest quality resources at attractive prices.

#### LAB ALLIANCE BENEFITS:

- MLE will waive the annual administration fee (\$75.00 value) on its proficiency testing service
- MLE ADVANTAGE discount 2 or 3
- ACP/MLE members save up to 15% by choosing COLA's highly respected laboratory accreditation in lieu of CMS
- COLA covers any switching fees
- COLA offers savings of 15% for ACP/MLE members on COLA's LabUniversity e-Learning courses and educational publications
- Lab Alliance offers free of charge an e-Learning course on Quality Assessment Basics and MLE CEexpress articles

To take advantage of all the benefits that the Lab Alliance offers go online to [LabAlliance.org](http://LabAlliance.org) or call 1-800-981-9883

# How To Order

If you would like assistance with designing the most economical order or have questions about our service or your order, contact MLE for assistance at 1-800-338-2746, option 5, or send us an e-mail at [mle@acponline.org](mailto:mle@acponline.org).

## Order Online with Ease!

[www.acponline.org/mle](http://www.acponline.org/mle)

- Click on the “Enrollment info” link.
- Click on the “2010 MLE PT Order Form” link.
- Complete the electronic form. It will calculate pricing for you. Once you submit the form, it will provide you with a summary of your order to print for your records. That’s it!

If you are ordering an educational resource, click on the Educational Resources link.

## Order By Fax

Complete the PT order form insert (or the Educational Resources order form). Fax your completed order form to MLE: 202-835-0440. If using a PO, please fax a copy of it with the order form.

## Order By Mail

Complete the PT order form according to these instructions and mail it to the address printed on the form.

Note: Purchase Orders (PO) must be accompanied by a renewal form or order form. POs by themselves will not be accepted.

# PT Order Form Instructions

Enroll in MLE by **December 18, 2009**, to ensure you receive shipments for the entire year. You may enroll any time after the first event at a prorated cost depending on the availability of specimens.

## Using the PT Order Form

### Formulate Your Order

Review the catalog to determine the products which best meet your proficiency testing (PT) needs.

Note any instructions that refer to specific regulatory requirements or instrument/method compatibility. Choose the product most appropriate for your testing needs. **Please pay close attention to instrument compatibility notes when selecting hematology modules and coagulation modules.**

### Top Section

Complete the PT order form (last page of catalog).

1. Indicate whether you are new to the MLE program or renewing your enrollment.
2. Print the address of the location where the invoice statement should be mailed (“BILL TO”).
3. Print the name of the laboratory director.

4. Enter the laboratory’s CLIA identification number. If you do not know your CLIA identification number, contact your CMS Regional Office.
5. Print the address of the location where the proficiency testing specimens and program paperwork should be shipped (if different from the “BILL TO” address). We will send the PT specimens via one-day express delivery to the “SHIP TO” address. For this reason, we cannot deliver specimens to a PO Box, so please provide a complete street address.
6. Designate the regulatory agency(ies) or lab consultant(s) to receive a copy of your PT results by checking the appropriate box. Don’t forget to include the COLA or state agency number assigned to you, if applicable, and the name, address, and phone number of any other persons who should receive a copy of your results.  
Indicate “Auto Renewal”.  
Indicate “Express Evaluation Reports”.
7. Indicate a module number, description, quantity, and price. Quantity of “1” includes a full year of shipments.

## Method of Payment

8. Specify the method of payment by checking the corresponding box.

Enroll now to ensure the availability of specimens for the 2010 program year. We will not bill you until November. Subsequent enrollments will be billed within 1 week after activation and are payable within 30 days.

**Invoice Option:** FAX (202-835-0440) the order form or MAIL it to the Washington, DC, address listed on the form. Billing terms are normally net 30 days from the date of invoice.

**Credit Card Option:** FAX (202-835-0440) the order form or MAIL it to the Washington, DC, address listed on the form. Check VISA or MasterCard, indicate the card bearer’s name, card number, and signature and the expiration date.

**Check Option:** MAIL the order form and check to the Philadelphia address listed on the form.

**Purchase Order (PO) Option:** FAX (202-835-0440) the order form or MAIL the order form and a copy of the PO to the Washington, DC, address listed on the form.

Billing terms are net 30 days from the date of invoice.

## Amount Due/Discounts

9. Add the cost of all the items you checked to the annual administration fee of \$75.

Enter the total amount in the box. If you qualify for an MLE ADVANTAGE discount, please check the appropriate box and provide the appropriate information.

## Next Step

- Photocopy the order form for your records.
- Within two weeks, you should receive an “Order Verification” confirming receipt of this order. **If you do not receive the order verification within two weeks, please contact us immediately.**

The MLE products you order may contain pathogenic material. By returning the order form, you assume all risk and responsibility in connection with the receipt, handling, storage, use, and disposal of the products.

# Frequently Asked Questions

## **1. Automatic Renewal Option: I do not want to worry about whether we are enrolled from year to year. Do you have an automatic renewal option?**

We sure do! By checking the Automatic Renewal box on the PT order form or your renewal form, you will never again have to worry about proficiency testing enrollment or placing your order for a new program year. We will automatically re-order the modules in which you participated the previous year, generate an order verification for your review, and send an order change form should you wish to add or delete modules from your renewed order. Simple. Easy. And best of all, one important management detail that you never have to worry about again! See the "Cancelling an Automatic Renewal Order" section for more information.

## **2. When to Order: When does my order have to be submitted to ensure availability of the modules I ordered?**

We encourage you to enroll in MLE as soon as you can to guarantee product availability. Enrolling by December 18, 2009, will ensure that you receive shipments for the entire year. Remember, payment is not due until 30 days AFTER enrollment. (Enroll any time before November and we will not invoice you until November.)

You may enroll any time thereafter at a prorated cost depending on the availability of specimens. For every missed event that you are not enrolled, 1/3 of the module price is deducted. The annual administration fee remains. Note: The online ordering form automatically displays prorated prices. See question 4 for more details on prorated pricing.

## **3. Individual International Orders: I live outside the United States and Canada and I am not with a distributor of MLE in my country. Please tell me about the shipping process.**

Individual laboratories outside the U.S. and Canada are subject to a minimum \$50 fee per shipment to cover shipping costs. Some destinations may be subject to additional S/H. Contact MLE Customer Service for specific shipping pricing information. Additionally, MLE cannot replace kits that are delayed or refused entry into your country. We will not issue credit or refunds on such shipments.

When enrolling in any of the MLE modules that involve hazardous material, laboratories outside the U.S., including Canadian laboratories, must send to MLE any copies of the necessary valid permits for attachment to each shipment. The shipments will not be sent without required documentation.

Freight charges are not included in the commercial pricing. You will be invoiced for freight charges AFTER each shipment. These charges are due BEFORE your evaluation is mailed.

## **4. Order Changes: Can I change my order at any time?**

Sure! We make every effort to accommodate new orders or order changes throughout the year, subject to product availability. See "New Orders or Additions" and "Cancelling a Module" for more information.

## **5. Irregular Order Frequency: Can I order modules outside my regular order? If so, do I have to be an MLE participant to order modules from you?**

Proficiency Testing is available upon request at any time during the program year (subject to product availability). Those enrolled with other PT providers are welcome to call upon MLE for help with reinstatement and compliance emergencies. See page 16 for details on off-schedule testing.

## **6. Needing Assistance: What if I need help with my order, testing, or regulations? Who can I turn to for immediate service?**

Our friendly and knowledgeable MLE Customer Service Representatives are available to assist with order selection, billing, address/name changes, order changes, and regulatory information. Additionally, experienced laboratory professionals will guide you through technical issues, interpretation of your results, and steps necessary for corrective action.

# Changes/Cancellations

## New Orders or Additions

All new orders must be submitted in writing to MLE. All changes to an existing order must be submitted in writing to MLE before they can be entered into the order processing system. Please send your order or order changes in writing at least four weeks prior to the next shipping date to avoid additional shipping fees. MLE ships three times per year. You may enroll throughout the year.

**Note:** The MLE catalog lists prices for the full year. After the first event, module pricing is prorated. If you add a module less than four weeks prior to the next shipping date, you MAY be subject to a "rush order" fee. Call MLE Customer Service at 1-800-338-2746, option 5, for more information.

## Cancelling a Module

If we receive your written request for cancellation of a module(s) at least four weeks prior to the next shipping date, you will not be held accountable for payment of the module for the remaining shipments. Unless otherwise requested, we will credit your account for that amount and the credit will be applied to additions to your order or toward enrollment for the next year.

**If you cancel a module less than four weeks prior to the next shipping date, you are financially responsible for the cost of the module for the next shipment.** You will NOT be financially responsible for subsequent shipments. For example, you cancel (in writing) a module on January 4, 2010. The first shipment (M1) is scheduled to be shipped on February 1, 2010. You are responsible for the cost of the module for M1 but not for M2 or M3.

## Cancelling an Analyte

Please submit a "Test Menu Deletion" form if your laboratory reported tests during the previous event that have since been discontinued, but you are not cancelling the module. Download the form at [www.acponline.org/mle/enroll.htm](http://www.acponline.org/mle/enroll.htm), scroll to "Forms", or copy the form in your MLE Program Guide, p. 32.

## Cancelling the Entire Order

We will refund any charges for unshipped specimens if we receive notification in writing four weeks prior to the next shipping date. Once we have shipped orders for pipettes, we cannot cancel the order or refund the cost. The annual administration fee is non-refundable.

## Cancelling an Automatic Renewal Order

If you are enrolled in Module 116 (automatic renewal) and wish to cancel your entire order, you are required to contact MLE in writing **NO LATER THAN December 18, 2009**, to avoid any charges for the upcoming year.
